### **Community Development Partnership Celebrates Community at Annual Farm Fundraiser**

**Eastham, MA** – In a fun-filled celebration of community the Community Development Partnership (CDP) is hosting their 6<sup>th</sup> Annual *Summer Evening on the Farm* on August 22<sup>nd</sup> from 5:00 PM to 7:00 PM at Halcyon Farm in Brewster. The public is invited to attend an evening celebrating local businesses, residents and community.

“On the 22<sup>nd</sup> we will celebrate our accomplishments in supporting small businesses and creating more affordable housing, while rededicating ourselves to continuing to nurture a vibrant Lower Cape community,” says Jay Coburn, CDP Chief Executive Officer. “This event is a great way to enjoy the beauty and resilience of our community and its people while raising important funds that allow the CDP to support more small businesses and create more affordable homes.”

In an evening set on the bucolic grounds of Halcyon Farm, the Bert Jackson Quartet will provide the musical backdrop as guests enjoy tasty local bites, such as fresh shucked oysters, and drinks provided by Truro Vineyards, Devil’s Purse Brewing and Shoal Hope Cider Works. Former State Senator and Cape Air founder Dan Wolf will emcee the live fund-a-need auction. Guests will have an opportunity to meet individuals assisted by the CDP over the years and network with others interested in a strong Lower Cape community.

### **ABOUT THE COMMUNITY DEVELOPMENT PARTNERSHIP**

The Community Development Partnership supports an array of programs that strengthen our Lower Cape community, providing greater opportunities for all who live here to thrive.

Our work starts with creating affordable homes—so essential to a healthy economy, but a real challenge in communities like ours where seasonal and vacation dynamics drive the market beyond the reach of many who live and work locally all year round.

We also work to launch entrepreneurs and strengthen local businesses. We believe a vibrant future depends on sustaining traditional industries and inspiring new ones—especially when they’re based on renewable natural resources such as fishing, farming and hospitality.

In all that we do, we aim to protect the natural environment around us—preserving the character and sustaining the future of this special place we call home.
